

Administrative and Investment Fees

The chart below explains the administrative and investment fees applicable to the various types of funds at The Rhode Island Foundation.

Administrative fees are calculated on the principal balance of each fund using a 16-quarter trailing average and are charged directly to the fund. They support all services provided by Foundation staff and other administrative costs.

Investment fees cover the services of the Foundation's investment managers who are selected by our investment committee and board of directors. Investment returns are net of investment fees.

Fund Type	Minimum to Create a Fund	RIF Support Fee	Investment Fee
Unrestricted	\$10,000	1.78%	.70-.90%
